- High quality edited video productions for use on websites, social media etc.
- Advertising images and videos
- Wedding and event photography/videography

2D/3D Mapping/Topographical Surveys

SkyView use the latest technology to accurately survey all types of structures and terrain, the mapping accuracy meets the requirements of the ASPRS (Accuracy Standards for Digital Orthophotos) Class 3, supported by a mobile base station enabling centimetre precision for precise imagery.

High Resolution Radiometric Thermal Imagery

SkyView offer a Thermal Imagery Service ideal for search and rescue missions, heat sensing technology to accurately identify hot spots, gauge the temperature to within 2 degrees and live stream video intelligence to command centres, powered by a capable high zoom camera.

SkyView Mapping can offer much more
